UNAOC

United Nations Alliance of Civilizations (UNAOC) is a political initiative of the United Nations Secretary-General. As a soft-power tool, UNAOC works on bridging divides and promoting dialogue and understanding between countries or identity groups, all with a view towards preventing conflict and promoting social cohesion. UNAOC' initiatives and project activities are fashioned around 4 priority areas: Youth, Education, Media and Migration.

In an increasingly globalized world, "The Concert for Human Rights" aims to promote better understanding by bridging the gap between diverse cultures and civilizations through music. UNAOC is proud to be partnering again with Fundación ONUART to achieve this common goal.
